Together we create an environment for personal excellence

From the Principal Tena koutou katoa

Again, it was great to see so many parents and students at the interviews on Monday afternoon. These subject teacher interviews provided valuable information for students to use in their subject selection for 2020. Subject selection should now be complete, and this information starts our process for creating the timetable for next year.

Our Student Trustee, Marcel Smith, spoke to Principal's assemblies this week about his role. I encourage students interested in the governance of the College to put themselves forward for this important position. Nominations for the 2020 Student Trustee close on Wednesday 28 August, with voting taking place on Monday 23 September.

Our Academic Leaders also spoke in assemblies about exam techniques for the upcoming senior mock exams. Students often under-estimate the importance of these exams, thinking they will leave serious study until Term 4. If a student doesn't study for these exams, they have no way of knowing where they need to concentrate their efforts, or what results they would get with a particular amount of study. While these are practice exams, the results will be used in the event of a student not being able to take the exam in November because of illness or other adverse event.

PROCEDURES FOR UNWELL STUDENTS

If you receive a txt or phone call from your child saying they are unwell please...

- Tell them to go to the nurse first before you come to the school
- The nurse will assess the student
- Then she will contact the parent/caregiver if the student needs to go home.

We have systems in place to best manage this and the safety of students can be compromised if they text family instead of following our procedures.

Your support in this would be much appreciated.
